

AI FITTRACK API

Empathy Map

Perspective of an API user

TEAM ID	SWTID-2026-7021
TEAM	Baranivel K (Leader); Ramesh M; Srikanth M; Nandhakumar S; Chandru S
DATE	30 September 2026

User

A person who wants account-based workout history and concise guidance.

Says and thinks

"I want to save workouts and find them later." "My records should only be visible to me." "I want advice that considers my goal."

Does

- Registers or logs in.
- Uses the returned JWT as a Bearer token.
- Creates or reviews workout records.
- Searches by name, category, or date-like text.
- Requests an AI recommendation or insight.

Needs addressed

JWT protection, account-scoped queries, search, and Gemini endpoints address these needs in code. This map is a design aid, not interview research.
