

AI FITTRACK API

Problem-Solution Fit

Mapping needs to implemented capabilities

TEAM ID	SWTID-2026-7021
TEAM	Baranivel K (Leader); Ramesh M; Srikanth M; Nandhakumar S; Chandru S
DATE	30 September 2026

Private activity

JWT middleware and user-scoped queries associate workouts with the authenticated user.

Workout history

Mongoose model and CRUD routes store and manage workout name, category, duration, calories, date, and user reference.

Find records

Search supports name/category and date-shaped terms; ID retrieval is implemented.

Guidance

Gemini endpoints generate recommendations and progress insights.

Evidence limits

Code and collection are present. No customer validation, adoption metrics, or satisfaction results were supplied.
