Count derived from source and collection

TEAM ID	SWTID-2026-7021
TEAM	Baranivel K (Leader); Ramesh M; Srikanth M; Nandhakumar S; Chandru S
DATE	30 September 2026

Method

Count distinct user-facing capabilities/supporting behaviors visible in code; this does not prove live test success.

Inventory

• 1 registration; 2 login; 3 profile; 4 JWT protection; 5 create workout; 6 list; 7 retrieve by ID; 8 update; 9 delete; 10 name search; 11 category search; 12 date search; 13 AI recommendation; 14 AI insight; 15 MongoDB persistence; 16 centralized errors; 17 health route; 18 Postman variables/assertions.

Total

18 capabilities are visible. Search dimensions are counted separately because they provide distinct query behavior.

Boundary

No run log proving every path passed was included.
