

AI FITTRACK API

Communication

Presentation plan

TEAM ID	SWTID-2026-7021
TEAM	Baranivel K (Leader); Ramesh M; Srikanth M; Nandhakumar S; Chandru S
DATE	30 September 2026

Purpose

Explain user problem, API design, implemented features, and actual evidence.

Suggested speakers

- Baranivel K: introduction and scope.
- Ramesh M: technology and architecture.
- Srikanth M: authentication/profile.
- Nandhakumar S: workouts/search.
- Chandru S: AI, testing collection, limits, future work.

Delivery

Use readable requests, explain JWT, avoid credentials/real user data, distinguish source inspection from a live run.

Prepare for

Password storage, record ownership, Gemini data flow, dependency failures, and which tests were actually run.

Contribution boundary

Speaker assignments are suggestions; the archive does not say who authored each module.
